

Group 17 Contract

Ground Rules

1. Keep the group updated with any changes or updates to projects, using whatever method has been agreed upon.
2. If working to a deadline, do your best to stick to it. If things can't be done in time, give as much notice as possible so that others can help, rather than leaving it until the last minute.
3. Rather than an overall group leader, the whole group should discuss and assign parts of projects where possible, to evenly spread the workload and allow everyone to contribute equally.
4. Any and all thoughts and opinions should be heard!
5. Assignments should be aimed to be completed within an agreed upon deadline, usually a day prior to official due dates.

This contract is subject to change, only with the express permission of all undersigned.
